

# Policy options to enhance Circularitiy

January 19th, 2024

Sophie Behr

# Introduction

Under the current framework condition, all three main markets of a circular economy confront challenges

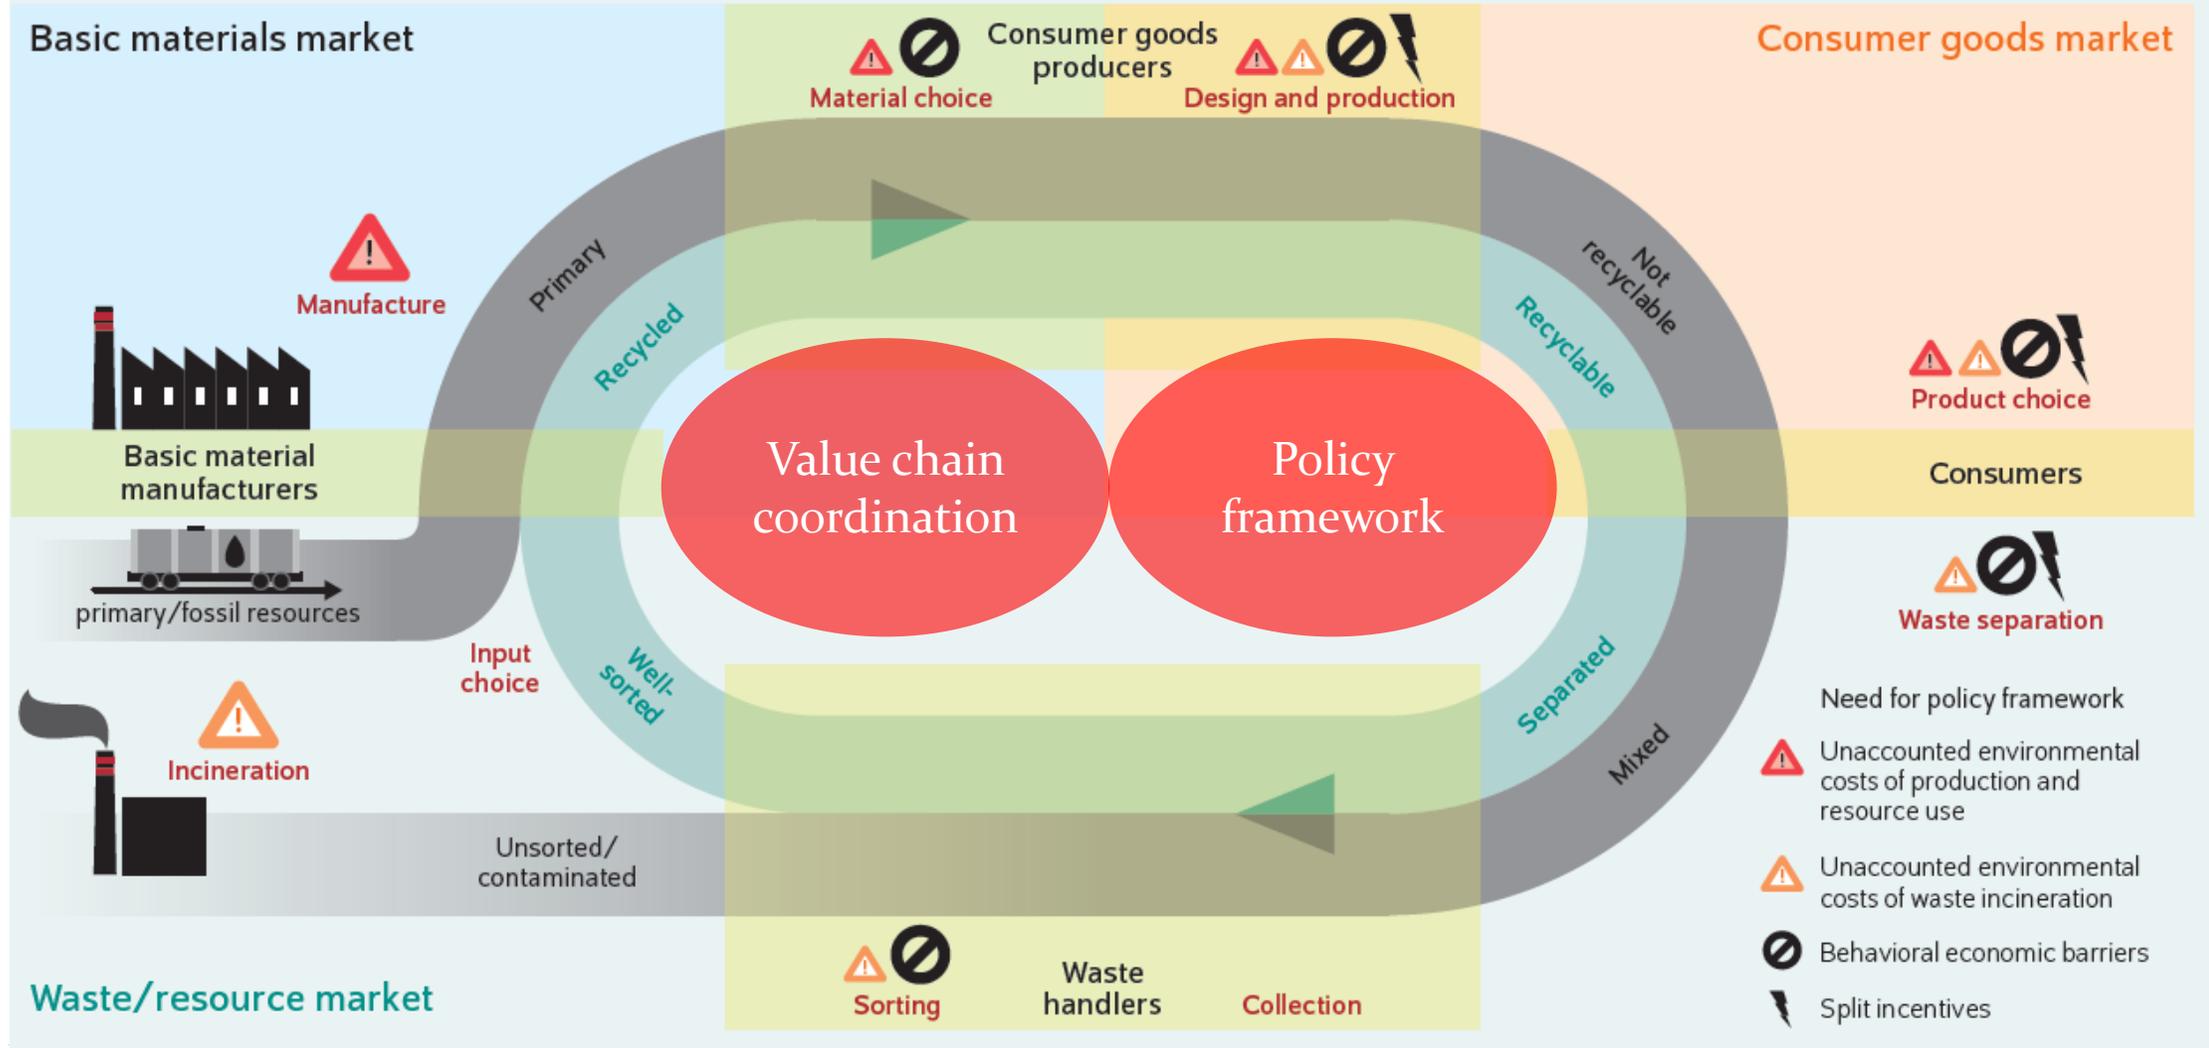

# Work in progress

- Interviews with 33 stakeholders along the value chain
- Focus materials: plastics and steel
- Opportunities and barriers for CE in the EU from an industry perspective
- Interviews lasted between 30, but mostly 45 to 60 minutes
- Current status: analysis of interviews

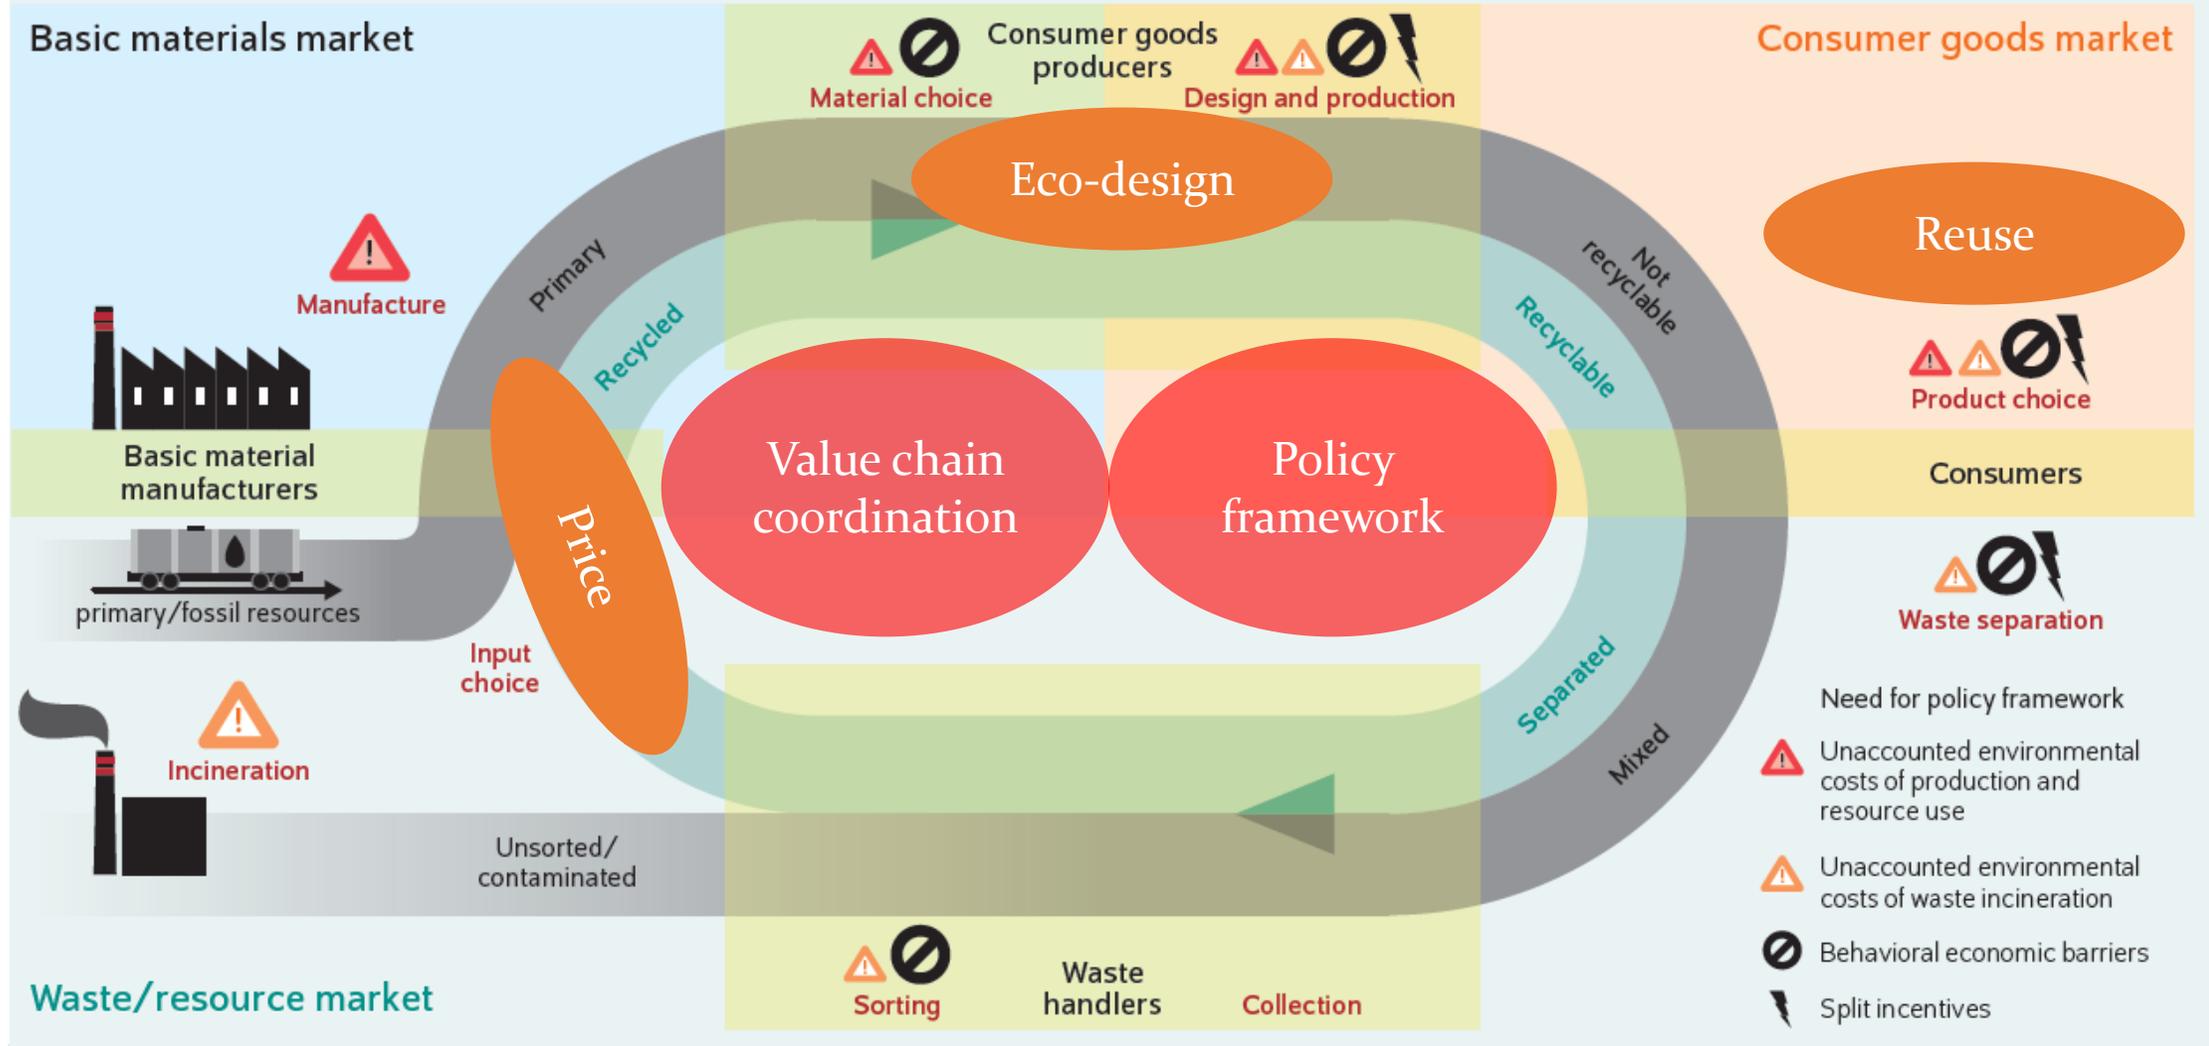

# Barriers identified in interviews

Under the current framework condition, all three main markets of a circular economy confront challenges
