## SOEP-IS 2022 – Questionnaire for the SOEP Innovation Sample

SOEP-IS Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)  
Series B – Survey Reports (Methodenberichte)  
Series C – Data Documentation (Datendokumentationen)  
Series D – Variable Descriptions and Coding  
Series E – SOEPmonitors  
Series F – SOEP Newsletters  
Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

## Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

The diagram illustrates the structure of a questionnaire question. It shows two questions, Q72 and Q73, with their respective text, instructions, and answer options. Labels on the left point to specific elements: question number, question text, interviewer instruction, answer options, in blue: identifier for filter, in blue: filter with condition, grey bar: open or numeric answer. A legend on the right explains the green text: dataset name, variable name, and variable label.

**question number** → Q72

**question text** → Now we would like to know something about you personally. Were you born in Germany?

**interviewer instruction** → This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.

**answer options** → Yes (1), No (2), No answer (-1)

**in blue: identifier for filter** → Q72:lsta1 bio I0013 born in Germany

**in blue: filter with condition** → Q72:lsta1=2

**grey bar: open or numeric answer** → [Grey bar]

**in green:**  
dataset name  
variable name  
variable label

**Q73** What country were you born in?  
Please enter the current name!

Q73:lsta2 bio I0016 Country Of Birth

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

*Is the respondent the head of household or the person who answers the questions about the household? The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members. Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!*

**6** The questions contained in this questionnaire deal with the household as a whole and not with the individuals in the household.

(4;HaushaltJa=1)&(5;panel\_auf=1)

**7** Before completing this questionnaire for "Living in Germany", it is important to first find out whether anything has changed in your household situation since the last survey or if everything has remained the same. This question deals with household composition. Please tell us which of the following applies to your household.

*Please select one answer only. "Last survey" refers to the last regular survey and not to the last supplementary surveys "Life During COVID-19" or the Living in Germany "Corona Monitoring" study.*

My household lives in the same home or apartment at the same address ...

... and no one has joined or left the household since then  1

... but since then at least one person has joined or left the household  2

My household lives in a new home or apartment at a new address ...

... after the household has moved, due to the arrival of one or more participants in "Living in Germany"  3

... after new household formation  4

**521\_37** Now we want to talk to you about possible reforms to long-term care insurance. The total costs of inpatient care amount to about 3000 euros per month on average. Depending on need and duration, the nursing care insurance pays an average of about 1500 euros in monthly subsidies. The own contribution, which the stationary care patients pay, amounts to on the average about 2000 euro in the month. Thus, the nursing care insurance pays about 40% of the average inpatient care costs.

(2;sample=22,25,38)&(521\_24;haa22\_22=2)

**521\_38** How likely do you think it is that the share of care costs paid by long-term care insurance will change by the time you retire? Please assign probabilities to possible answers a), b), and c) that add up to 100%. The following amounts are in today's prices and any cost increases are ignored.

a) Reduce monthly subsidies to an average of about 1000

euros or less.

b) The monthly subsidies remain on average about 1500 euros

c) Increase the monthly subsidies to an average of about 2000

euros or more.

521\_38:haa22\_35 inno i107\_37 Probability of reduction in monthly subsidies 1000 euros or less

**522\_6** In the following, we will first describe a fictitious couple. You will then see five possible scenarios. After each scenario, please indicate how likely you think it is that the couple described will have a child together or will separate.

**Initial situation: Please imagine the following fictitious couple:**

- Tom (<osu22\_02>) and Lena (<osu22\_01>) have been living together for three years and basically agree that they want to have children together.
- Both are in permanent employment, work full time and want to continue to do so.
- Tom has no siblings and his parents live far away.
- Lena's older sister and her mother both live nearby.
- Lena's father died a few years ago.

**576\_7** When answering questions on life satisfaction, people often have different time horizons in mind which are important to them and in which they consider how satisfied they are, were, or will be. This is perfectly normal and often unavoidable, even when a life satisfaction question asks about a specific time horizon in the past or in the future. Which time horizon did you have in mind when you answered your life satisfaction question? Please answer honestly and tick all that apply on this vertical timescale. There is no right or wrong.

**579 Where were you born? If there are other towns or cities with the same name, or if the town is very small, please state the nearest city.**

*Please write the name of the town in the search field. After typing at least three letters, matching entries will be displayed in the field below. If one of these names is correct, select it and then click on the gray arrow in the middle. Alternatively, you can double-click or tap on the town's name in the left list. The town's name you selected should then be displayed in the field on the right. If no suitable name is displayed in the list on the left, please accurately type in the name of the town and any additional information (e.g. "Frankfurt an der Oder", "Frankfurt am Main" or "Roßdorf bei Schmalkalden") in the search field. Your entry will then also be displayed as a town in the field below. You can then select this entry and press the gray arrow in the middle. Alternatively, you can also double-click or tap on the town's name in the list on the left. The town's name you entered should then appear in the right field. You will find a red circle next to the town's name in the in the right field. Click on it if you want to remove a town that you selected accidentally and your entry will be deleted.*

**670** The following questions deal with partnership and marriage or registered same-sex partnerships (eingetragene gleichgeschlechtliche Partnerschaft). All of these questions deal with your relationship, whether you are married or not. There are questions dealing with your current relationship and others dealing with past relationships. We will start with your current relationship and then ask you to look back on relationships you had before. In the case of past relationships, we are talking about relationships that lasted six months or longer.

*Whenever referring to marriage, we are also referring to registered same-sex partnerships!*

## Imod26 Innovative module – Mobile app

**790\_APP\_Intro** As already announced in the cover letter, we are investigating social relationships in everyday life in cooperation with the Ludwig Maximilian University of Munich and the University of Heidelberg using a smartphone app developed for this purpose. Participants in this scientific study simply install an app on their smartphone that runs in the background and answer a short questionnaire on their smartphone in the evening (1-2 minutes per questionnaire). After the two-week study period, they receive an expense allowance of 40 euros for this. Further information about the study and the comprehensive data protection, which is guaranteed by the data protection officers of the participating institutions, can be found in the flyer.

**790\_APP\_A** Would you be interested in participating in this scientific study in general?
