SOEP-Core v39 – CHILDL: Dataset on Children in the SOEP, Including “Mother & Child”, “Parent & Child”, and “Childhood” Questionnaires

Paulina Mertinkat and Jana Nebelin

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

1 Introducing the CHILDL dataset

The CHILDL data file is generated using information collected in the “Mother & Child” and “Parent & Child” questionnaires, as well as the “Childhood” questionnaires. These questionnaires were given to our SOEP families (samples A-Q), as well as parents from the samples of the Families in Germany (FiD) study and of our migration (IAB-SOEP) and refugee-samples (IAB-BAMF-SOEP). The data covers a period from 2003 until 2022 and provides data on different stages of development of children. The “Mother & Child” & “Parent & Child” questionnaires are part of a series designed for specific cohorts of children living in SOEP households. They address various stages of life history, including the fetal phase, birth, preschool and primary school. By gathering detailed information in age-based questionnaires and for different survey years, the data files allow us to track and monitor future generations within the SOEP. The following documentation is divided into four additional sections. Section 2 elaborates on the respondents of the instruments, including relevant statistics. Section 3 outlines the questionnaires. Section 4 provides an overview of the topics addressed in the questionnaires. The different questionnaire types historically focused on age-specific questions, while also including many comparable questions across various age groups. Since 2022, the previous five separate questionnaires for distinct age groups have been replaced by a single questionnaire that is filtered based on the child’s age. Another significant change introduced in 2022 is the shift from targeting specific cohorts, such as parents of children aged newborn to 1 year, 3, 6, 8, and 10 years old, to offering a shorter, unified questionnaire for parents of all children from newborns to 11-year-olds. To ensure a comprehensive and seamless data collection process, all variables from the “Mother & Child” and “Parent & Child” questionnaires are now consolidated into a single dataset, CHILDL. Starting with the v34 data distribution, all available data was provided in BIOAGEL. The separate bioage data files were no longer part of the data distribution. Since v39 data distribution CHILDL replaced BIOAGEL. To make handling easier for users of the BIOAGEL a list of correspondence is available, see appendix below.

Nearly all questionnaires (“Mother & Child” or “Parents & Child”) were answered by one of the parents or caretakers. Particularly the questionnaire for newborns should be answered until now by the mother, because of questions concerning pregnancy. In rare instances where the mother was unable to do so, the father stepped in for this questionnaire concerning newborns. Only one questionnaire “Parents & Child”, was explicitly provided to both parents. The respondents’ personal ID number, indicating whether the respondent is the father, mother or another caretaker, is recorded in the variable PIDE in the childl data set. Note that while the parents are the primary respondents, the data is organized under the child’s unchanging personal ID number (PID).

cla0002 – Child's month of birth

? Dear Participant,

The next generation is of utmost importance to the study “Living in Germany”. This short questionnaire is about children who were born in 2020 and 2021. The questions deal with your personal experiences and the development of the child. Since some of the questions are about the pregnancy and the birth of the child, the questionnaire is usually completed by the biological mother. However, it can also be completed by another caregiver if appropriate to the case at hand. Your participation is, of course, completely voluntary. We cordially invite you to: - provide our staff member with an interview, - or carefully complete the questionnaire yourself. // Month (*from: soep-core/soep-core-2021-e1/Intro:agebm[31208]*)

? Dear Participant,

During their first few years, children go through a wide variety of developmental stages. This important phase of life is of crucial interest for scientific research. This short questionnaire is about children who were born in 2018. The questions deal with your personal experiences and the development of your child. The questions are answered by one of the parents or by another caregiver. Your participation is, of course, completely voluntary. We cordially invite you to: - provide our staff member with an interview, - or carefully complete the questionnaire yourself. // Month (*from: soep-core/soep-core-2021-e2/Intro:birthm[31272]*)

? Dear Participant,

Despite the wealth of research findings on school-aged children, still relatively little is known about the important period of children's lives before they start school. This short questionnaire is about children who were born in 2015. The questions deal with your personal experiences and the development of the child. The questions are for one of the parents or another caregiver. Your participation is, of course, completely voluntary. We cordially invite you to: - provide our staff member with an interview, - or carefully complete the questionnaire yourself. // Month (*from: soep-core/soep-core-2021-e3/Intro:birthm[31301]*)

? Birth date: // Month (*from: soep-core/soep-core-2021-e3-2/2:birthm[31314]*)

? Dear Participant,

This short questionnaire is for mothers and fathers of children who were born in 2013 and who live in this same household. Please answer the questions even if the child is not your biological child but rather an adopted or foster child, or the child of your partner who lives in this household. The questions deal with your personal experiences and opinions on topics like parenting goals and styles as well as education and childcare. We ask that each parent completes a questionnaire. Your participation is, of course, completely voluntary. We cordially invite you to: - provide our staff member with an interview, - or carefully complete the questionnaire yourself. // Month (*from: soep-core/soep-core-2021-e4/Intro:birthm[31336]*)

father – Questionnaire newborn completed by the father

? Belated congratulations on the birth of your baby! For “Living in Germany” the next generation is especially important. This short questionnaire deals with children, who were born in 2013 or 2014. Our questions refer to your personal experiences and the child's growth. Because the questionnaire is about the pregnancy too, the following survey is aimed for the mother. The participation is voluntarily. We cordially request you, to answer the questions for our Interviewer or to fill out the questionnaire by yourself accurately. // Completed by father: (from: soep-core/soep-core-2014-e1/0:avati[753])
